

## Diabolo Baby

(technical specification)

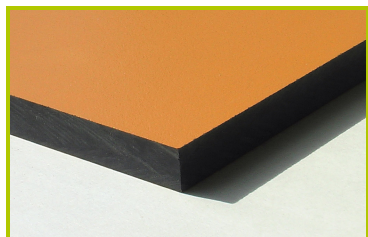

J38203

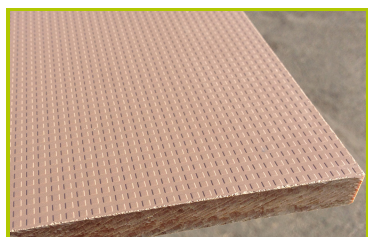

- 1- **The 70 x 70mm post** is made of painted galvanised steel, ensuring robustness and durability. The cap is made of injection moulded polyamide.

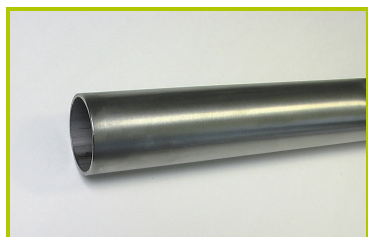

- 2- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance.

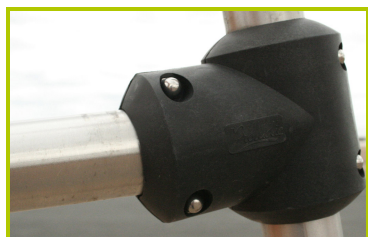

- 3- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

- 4- **The platform and the steps** are made from a 12.5mm thick textured and non-slip compact material (HPL).

- 5- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

- 6- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

7- **The sliding surfaces** are made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

8- **The 16mm diameter rope** is made of galvanized steel cable covered with polyester.

9- **The strap** is made of 5 ropes linked together with aluminium pliers. Each rope, of 16mm diameter, is made up of galvanized steel cables covered in polypropylene.

10-**The net fittings** are made of polyamide.  
The fittings are composed of two distinct parts for ease of maintenance of individual strands.

11-**The climbing holds** are made of polypropylene. They are non-toxic, inflammable and shock and UV resistant.

12-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
