

## Diabolo Baby (technical specification)

J38703

1- **The 125mm diameter posts** are made of lacquered galvanised steel. The two-tone grey grained finish has a slightly undulating surface for increased scratch resistance.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platforms, the steps and the climbing wall** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The 60cm wide walkway** is made of a beveled aluminum treadplate.

5- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

6- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

**7- The sliding surface** is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

**8- The tunnel** is made of rotomolded polyethylene, 45cm in diameter.

**9- The climbing holds** are made of polypropylene. They are non-toxic, inflammable and shock and UV resistant.

**10-The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
